

Lost items game

Number of players

3-5 players

Object of game

To collect all your lost items which are on your base card.

The first person to do this wins the game

How to play

Each player chooses a base card which shows the items they have lost.

The dealer deals out the small cards that are relevant to the boards being used. If all 5 base boards are in play all the cards need to be dealt. If no one is using the 'knitting/newspaper/gloves/cup' card for example then the matching small cards need not be dealt out.

Each player looks at their own cards. If they can match any to their base card they can lay them on top of the symbols.

The person to the left of the dealer starts by asking any player for one of their lost items by naming, pointing or signing.

If the person has it they must hand it over to player 1 who can place on their base board. Player 1 can keep asking until the person does not have the item they are asking for and the play passes to the person to their left./

The game continues like this until 1 person has 'found' all 4 of the lost items on their base board.

Purpose of the game

Stimulates language, social interaction and develops turn taking

Alternative game - Pairs

Print and cut out 2 or more sets of small cards.

Lay face down in rows.

1st player turns over 2 cards to see if they match.

If they match they can be kept in front of the player and they can turn over another 2 cards.

Player's turn ends when they do not make a match and they place cards back in the same place face down.

Play goes to next player.

The winner is the player with the most pairs when all the cards have been taken.
