Referrals, allocations and new services policy – version 3.2

Date approved for use: 18th November 2020

Scope

1.1 This policy is a Dimensions Group policy. This means it applies to all its subsidiaries as listed here.

1.2 This policy tells us what processes and toolkits to use when managing a referral and setting up a new service.

1.3 Its purpose is to ensure colleagues are aware of their responsibilities and are setting up high quality services.

1.4 All our employees should follow this policy. However, it is most relevant to Business Development, Operations, Housing and Finance stakeholders involved in the referrals and service set up process.

The referral process Page 3
Service setup process Page 4

Policy statement

2.1 For the purpose of this policy, we will refer to all people coming to us for support as ‘referrals’. We will refer to the process of matching referrals to properties as ‘allocations’.

2.2 Dimensions aims to give people maximum choice and control over what they do, how they spend their time, who supports them and how they are supported. This principle is applied to all referrals which come to us.
2.3 No matter where a referral comes from, a local authority, NHS trust or private individual, we treat everybody equally from our first meeting with them to our last.

The impact of not implementing this policy

3.1 If we don’t follow the guidance in this policy, we could incorrectly set up a new service, which could lead to poor standards of support and potential placement breakdown.

3.2 People we support, their representatives, commissioners and social workers might lose confidence in us. They might go to another provider for support.

3.3 It may also get us in trouble with our regulators and others:
   - local authorities or other commissioners
   - the Regulator of Social Housing (RSH)
   - other registered providers if we provide housing management via a management agreement and their tenure policy is not used
   - freeholders if we lease the property.

Policy content

Nomination rights

4.1 At all times, Dimensions-owned stock and that of other landlords with whom it has a leasehold arrangement will be used in best way possible. Dimensions reports annually to its Board on how its properties are let, offering assurance on their use for a social purpose. Operations Directors are responsible for the management of contractual nomination rights in their region. Nomination rights to local authorities will be strictly observed and the requirements of - in the majority of Dimensions’ referrals - Referral Panels adhered to, although Dimensions will also observe the requirements of local Housing Registers and Common Allocations Policies where appropriate to the designation of the stock. CORE forms (see Tenure Policy) will share appropriate information with the Government about use of stock and the correct security of tenure will be given to the incoming tenant, affording the maximum possible security of tenure. The correct rent will be set and charged (see Rent and service charge setting policy).

4.2 Sometimes a local authority with nomination rights will be unwilling or unable to refer a person to a service in good time. This may impact adversely on our
anticipated income. If this happens, the Operations Director will need to make a judgment on the appropriateness of sourcing referrals from elsewhere. This will be done in full cooperation with the local authority where possible and always with respectful, timely notification.

4.3 We are committed to helping people we support exercise choice and control over their lives. This means fully involving them in decisions about who they live with. If they object to a local authority’s referral moving into their home, it may mean we need to support them in their objection. This will be the case even when that local authority has nomination rights. Interactions with the local authority must be respectful and have regard for the authority’s allocations policy where appropriate.

4.4 So, while we should do all we can to respect contractual relationships, we also reserve the right to decline referrals in the best interest of people we already support. This, again, will be done in a respectful, collaborative way with appropriate regard for the allocations policy of the local authority where appropriate. Where a referral is declined and this action means that the property is under-occupied, this will be acknowledged and discussed with the local authority and all reasonable effort made to secure a new referral as quickly as possible to optimise use of the stock. Since declining a referral may impact negatively on income, we will need to manage such situations carefully. The Regional Finance Manager must be involved in the decision.

The referral process

5.1 The regional Business Development Manager is ultimately responsible for the successful management of all referrals into their business unit. Working in conjunction with the Referral & Assessment Managers, the Business Development Teams are responsible for ensuring best use of stock by appropriately letting void properties.

5.2 Where we feel that we cannot deliver support effectively, then we may decline a referral or direct them elsewhere. Our reasons for this will be communicated as soon as possible after making the decision and we will do it in the person’s preferred format and we will not hold any personal information about them for longer than six months afterwards.

5.3 Where we feel we can support a person, a ‘named lead’ will be nominated by the Business Development Manager for that referral.

5.4 The ‘named lead’ could be a Referrals & Assessment Manager; Business Development Manager; Operations Director or Locality Manager, dependent
on the level of complexity, timescales and whether the referral is for a new service or to fill a void.

5.5 If there is any uncertainty about who the named lead for a referral should be the decision will be made by the Regional Managing Director.

5.6 The named lead is responsible for following the most up to date referral process. Utilising the tools available within the process toolkit to ensure that:

- a full risk appraisal is completed
- an appropriate assessment is undertaken
- a costing includes all relevant needs, and
- a clear proposal of support is put forward
- the correct tenancy and rent type is created, appropriate for the property in question.

5.7 The process and toolkit with all relevant documentation are held in the Referrals & Call Off Toolkit on the intranet and will be updated as required.

The service set up process

6.1 The Operations Director is ultimately responsible for the successful management of all new services in their area. They may delegate associated responsibilities to a named lead, who may or may not be the same named lead as in the referral process.

6.2 We will not start to set up any service or provide support, before having payment arrangements agreed in writing for the full package of support including but not limited to: any transition costs, behaviours support input, practice development input, housing adaptations.

6.3 The named lead is responsible for following the most up to date service set up process. Utilising the tools available within the process toolkit to ensure that:

- all stakeholders involved sign up to the transition plan and service design
- all roles and responsibilities are clearly assigned to both internal teams and external stakeholders
- a transition plan is in place, where possible, including a number of visits for the person we support to their new home
• all relevant documentation is in place before the individual moves in and the service goes LIVE.

6.4 The process and toolkit with all relevant documentation are held in the Service Set Up Toolkit on the intranet and will be updated as required.

Relevant legislation, guidance & related policies & templates

**Legislation**

7.1 Health and Social Care Act 2008 (Regulated Activities) (Amendment) Regulations 2015
7.2 Care Quality Commission (Registration) Regulations 2009 (as amended)
7.3 The Domiciliary Care Agencies (Wales) (Amendment) Regulations 2013
7.4 Social Services and Well-being (Wales) Act, 2014
7.5 Data Protection Act 2018
7.6 General Data protection regulations (2016/679 EU)
7.7 Regulator of Social Housing ‘Tenancy’ Standard

**Guidance**

8.1 Guidance for providers on meeting the regulations (Care Quality Commission 2015)

Equality statement

11.1 This policy promotes equality, diversity and human rights by directing employees to:

- set up services of the highest quality
- help empower people we support to make decisions for themselves around the support they wish to receive
- respect those decisions whatever the person’s race, age, gender, ethnicity, religion, disability, sexual orientation or whether or not they are married
- act only in a person’s best interests when either making a decision on their behalf or being consulted by a decision-maker
- take the least restrictive option when making decisions around a new service
- never discriminate in decision making around a referral based on their ethnicity, faith, disability, gender, sexual orientation, marital status or age.

11.2 We promote equality, diversity and human rights by treating all people we support and employ equally and fairly whatever their:

- age
- disability
- gender reassignment
- marriage and civil partnership
- pregnancy and maternity
- race
- religion or belief
- sex
- sexual orientation

11.3 The equality impact analysis (EIA) is in the intranet’s Document library. You can link to it from here: **Referrals - version 3 - initial equality impact analysis.**

### Data protection statement

12.1 This policy involves handling personal data. So when you carry out any procedures this policy describes, you should also think about what our Data handling and protection policy says.

12.2 Our Data handling and protection policy is our promise to handle personal data correctly under the Data Protection Act 2018 and the General Data Protection Regulation (GDPR). It tells you how to keep that promise. It balances everyone’s rights to data privacy with the work we do.

12.3 Information held about referrals will be held and processed in line with the principles of the Data Protection Act 2018 and GDPR. Analytical reports will be produced to monitor trends but individuals will not be identified in these reports.

### Review

13.1 We will review this policy three years from its original publication. But if changes in legislation, regulation or best practice mean we need to, we will review sooner.

13.2 If the changes are big, we will equality impact analyse (EIA) the policy again and send out to consultation in line with our Policy development and consultation policy.

13.3 For smaller changes, we will update this same version. We will record this in the Version control section below.
14.1 Not all these words appear in this policy. But you may find other people use them when talking about tenancies.
